GLEICHEN, ALBERTA, WEDNESDAY

WERE YOU EVER IN THE LEMONADE BUSINESS?

When we dust off your memory a trifle, we'll wager that you can see your own face in the picture.
A barefooted boy with plenty of stone bruises, a dry goods box under a big tree in the front yard and near the road, several empty glasses, a pitcher of lemonade, and there you were on a hot afternoon, you and your chum, engaged in your first business venture.

Business was brisk, we were selling two glasses of lemonade for a nickel, but our prosperity of course invited competition. One afternoon when we opened up for business we gazed across the street and down went our hearts to our bare feet, because slipping us right in our faces was a big pitcher of lemonade which was rully scrawled "3 big glasses of lemonade for 5 cents."

We looked at each other in dismay; we could see our trade leaving us and our business on the rocks. I finally said to my chum, "let's go down and talk with the grocer who sells our lemonade; maybe he will take back the two we have on hand and then we can close up shop."

Our grocer said, "You boys go right back to your store and instead of cutting your price, keep up the quality and you will find that people would rather have two glasses of good lemonade for five cents, than three glasses of slop at the same price."

QUITE TRUE

Under the heading "Advertising in the Local Paper," a writer gives the following sound advice to every retail merchant:—For a merchant to omit the employment of his local paper is just as sensible as his nonuse of the railway train or motor car to travel a journey of 25 or more miles. The fact is that a newspaper goes into a thousand or three thousand homes without a particle of effort on the part of the man who advertises in it. The merchant must pay for the space he uses, and write the advertisement that fills the space, but having done this all the rest of the matter of getting his message distributed is the business of the newspaper publisher. The local newspaper renders local merchants a wonderful service, and this at an absolutely small cost. It means that from three to five families can be solicited for a single bag of cement, and that a five cent piece pays for solicitation of from 15 to 25 families. What cheaper solicitation is possible or desired.

Many a dealer has spent a dollar weekly to solicit the favor of some young lady in whose affections he would have a high place. He has spent a dollar and more weekly

TAKE OZONE

The greatest peril to human life which we have to combat, is tuberculosis. As we need fresh air, for fresh air in the lungs means pure blood in the body, and pure blood is health. If you only walk a few squares a day you can gain much if you throw your shoulders back, lift up your chin and breathe deeply through your nose. Keep your mouth firmly shut, hold the air in your lungs a few seconds, and then exhale through your nostrils slowly, and you will find you shortly will feel better in every way. Even the "black butterflies" which have perhaps given you a sleepless night, will fly away to some other resting place after you have had a short walk in the open air and a half hour given to deep breathing. Your eyes will become brighter, your complexion will grow clear and rosy nature will assert herself and beautify your face in a way that would be the despair of a beauty specialist. The skin, when you return from a ride or a walk, may need a little of the short efforts in the pores and will produce a more or less drying effect upon it, but a brisk walk acts as tonic and you can see improvement immediately in your complexion as well as in your spirits. Sometimes, but this is rare, a little eruption comes on the skin after walking in the wind. This, however, generally denotes a disordered liver. Continued and lengthy walks will also cure liver trouble, so if you have patience and no fear you can walk off any ills.

Remember one hour's walk in the fresh air will change blue to rose color.

—perhaps a longer period—to have the favor of a single lady of yet has been asked at spending an equal sum to "let" the favor of one thousand or more families whose business would quickly return to him the cost of solicitation. One wonders why so many men in the retail business neglect the solicitation of 1,000 to 2,000 community families by the agency of newspaper advertising.

When a boy runs out of money he cashes in his pop and beer bottles. When the daughter of the house needs extra dimes the mother sells the milk bottles, when the housewife is broke she sells an old coat, or overdraws the family account at the bank, but the average husband and father when his pile of ready cash is exhausted, merely does without things until he earns more.

It may be the woman always pays, but the man usually incurs a charge account which must be settled some day, even though the settlement be delayed for a time.

Here and There

Stromont, the last mine in Nova Scotia, when mid-mining in the province was so industry, is to be re-opened. Until it closed down, twelve years ago, Stromont mine had produced over 575,000 tons of ore, giving an average of four gold of \$1.10 per ton, or \$225,000 during its activity.

A record single shipment of Indian motor-cycles, consisting of 80 cases, from Amory, Mass., recently arrived in Tokyo, Japan, having come forward by Canadian Pacific Rail and steamer lines. The demand for motor-cycles in Japan is a steadily increasing one, being a cheap and convenient method of locomotion and well suited to the somewhat narrow roads of that country.

Twenty-one British Rotarians recently came over to Canada on the Canadian Pacific line "Montclair" en route to the International Rotary convention at Denver. On their return trip they came back through Canada, travelling to Winnipeg and Fort William, and taking the Great Lakes trip on C.P.R. steamboat to Port Maitland. They returned to the Old Country by the C.P.R. line "Montclair."

The Canadian Pacific Railway has just added two of the most modern Class observation cars to those running out of Montreal. Five more cars should be ready to run and the balance of four cars will be ready for service shortly after these. They are all steel cars, made up of three compartments, and one drawing room with a parlor room and observation platform. They will be a feature of long-run trains on the C.P.R.

The English football team now touring Canada had one of the most strenuous work-ups in the history of any athletic body. Staying for a week-end at the Chateau Lake Louise they had a practise at an altitude of a mile and a half above sea level, where the thinness of the air had a wonderful effect upon them. Their captain thought it remarkable that prize-fighters in training had not utilized the marvellous properties of this training camp.

A four-year special Canadian Pacific Railway carried more than a hundred most prominent representatives of the banking and business world of New York City and State in connection with their 32nd annual convention of the New York State Bankers' Association at the Chateau Frontenac recently. Included in the party was Col. J. W. McIntosh, Comptroller of Currency, Washington; and W. J. Donovan, Assistant Attorney-General of the U.S., and several financial specialists of New York's leading newspapers.

While Canadian Pacific train No. 87 was standing on public crossing property to take making track an automobile, occupied by five persons, ran into the side of the train badly damaging the auto. In another case, a driver said he saw the train badly damaged and the automobile was run into the side of the engine. Yet again, a touring car, travelling about 25 miles per hour, ran through the crossing barriers at a public crossing in Montreal but did not stop. No injuries were reported in all three incidents.

Representing capital running into tens of thousands of dollars, a group of eighty prominent bankers, financiers and men, representing commercial and business interests, recently arrived at the Windsor Street Station, Montreal, from New York, and made a tour of the pulp and paper industries and the new aluminum district of the province. In those great developments, the party was accompanied by a large number of business men, departments and drawing room sleepers, two dining cars and the private car "Windsorview," which is being C.P.R. equipment.

Immigration to Canada in 1925 totalled 44,007, of which 25,000 was contributed by the British Isles; 17,117 by the United States, and 11,672 by other countries. In addition, 29,000 Canadians who had established themselves in the United States and needed there for a period longer than two years—returned to live in their native land.

A new cash-and-delivery parcels system has been inaugurated at Post Offices all over Great Britain. Parcels up to the value of £10 (about \$195) may now be posted at any post office in any village in Great Britain, the value being collected by the Post Office authorities and remitted to the sender. The system seems to be meeting with success.

Business conditions on the Pacific Coast continue on the upward trend with great activity in construction work. The lumber industry outlook is brighter and there have been important developments in new saw-mill construction. The fishing industry is on a better footing, pulp and paper mills are active and additional power programmes are being worked out.

What is the Harmonic Balancer?

Why is this new Oakland feature creating such widespread interest? Why is it regarded as the year's outstanding advancement?

The Harmonic Balancer is an entirely new engineering development, pioneered by Oakland, and rendering the Oakland Six engine unmatched in freedom from vibration at all speeds.

This remarkable feature does not merely dampen vibration—it prevents vibration. It makes use of a simple natural law to neutralize any twisting of the crank-shaft under repeated piston impulses and thus stops torsional vibration at its very source.

But the Harmonic Balancer is not all. The new Oakland Six embodies more than 100 other improvements including Four-Wheel Brake refinements, Air Cleaner, Oil Filter, and Full Pressure Oiling System.

FROM "The Indian Content"

— BY MRS. M. MATHESON

The following verses contain a tribute to Canon Stoken, who labored so long among the Blackfoot Indians at Gleichen:

So swiftly, to the ripple of the waves
Of the mysterious Bow, his paddle dips,
No distant sea, his shore of memory lies.

He knows not of the ocean-going ships.
The prairie is to him the outer world.
His farthest Vision, his Cain's Con-
tinent, and his

He seeks not for the deep's white
sails unfurled,
There is a simple thought his day
are spent.

His tepid deck the centre of the plains.
Their shining clouds bright against
the clouds.
His dwelling where we call it
vain.

To-morrow, they are gone, like
ghosts in a shrub.
No more the buff to rousing o'er
these ways.

Are fearful of the arrow and the
club,
Gone are the mammoth of the far-
off days

The turf resounding is forever
mute.
The river whispers of the ancient
wars.

Trees gossip of the centuries gone
by.
But no, no feudal scene the land-
scape marks.

Instead, is Peace and mild Pros-
perity.
And he who taught this better life
to live.

And served through hardship, while
he onward led,
Building their schools and hospitals
to give.

To Indian life, the feast of Living
Bread.
Who came from Oxford in the days
of stress.

And taught while all but forty
years revolve
Mid danger, toil and bitter loneli-
ness.

Concealed beneath the fires of high
resolve.
His is the humble life that merits
fame.

And his, one day will be the Vic-
tor's rest,
And his, a deep-writ and emblazoned
name.

'Mong those who give to Canada
their Best.

NEWS OF MILO AND QUEENSTOWN

BY JOHN GLAMBAK

July 16 "Captain Rachel" at the
Milo Co-operative Hall.
The good rains we have had lately
came a little late, but better late
than never.

The crops are certainly looking
good, and while it will not be a 40-
bushel harvest it will be a fair aver-
age crop.

Wheat has been headed out since
the beginning of July which should
put the harvest between the 15th and
15th of August if not before.

The farmers captured the Bow Val-
ley riding, which for many years has
been held by the Liberals. Shaw's
everlasting attack on the government
made many farmers, sure and his
promise of making a paradise out of
the province by the aid of the Liber-
al party made the farmers smile. We
may be short of memory still we
have not forgot the rule and ruin
policy of the good old Liberal party.

The new voting system certainly
got a lot of people rattled up. In the
Pioneer poll there were 7 spoiled bal-
lots out of the 80 voting, one tenth
spoiled, and seven of these were more
for Pioneer. In spite of all the
warnings most of these people still
adhered to the old cross voting meth-
od, and put out one of each
candidate's name. In the Queen-
stown poll there were seven ballots
spoiled.

A new road to Queenstown. For
some time the farmers east of Queen-
stown have been agitating for a new road
instead of the mud hole road running
west from Austin Brown's place, but
the railway company would not put
in a crossing where it would do
the most good, the project has been
left up. However, last week the
railway commissioners granted the
crossing and the road will now be
built, and run on dry ground all the
way, besides cutting off the hauling
distance for some of the farmers. The
road is to start west from the old
Hosie place now owned by Winkler,
and cross the Norman Hall place also
now owned by Winkler, then across
the Blue and David Brown place.

The semi-annual meeting of the
shareholders of the Queenstown Co-
operative Association, who own the
Farmers Hall, was held Saturday
evening, July 13th, in the hall. The
meeting was very successful and it
was decided to have the hall painted
this summer. Mr. Vic Redmond is
president and A. Alston secretary.

Don't forget the farmers picnic on
July 14th, at the Municipal Park, on
the west side of Lake McGregor
near the upper dam. All kinds of
races and sports and ending up with
a dance at the hall in the evening.

A lot of farmers are spending a few
days at Calgary taking in the stamp
ede.

Mike Monner who purchased the
old John Elph farm last spring is now
tearing down his building and will
put up a big barn on his own place.

TOWN AND DISTRICT
The council has accomplished a lot
of good work in repairing the side-
walks about town the past week with
boards taken from the old power
house just torn down.

The trustees of the Queenstown
school district are calling for tenders
in this issue for the erection of an ad-
dition and remodeling of the old
school building.

A. B. Smith of Arrowood, paid
Gleichen a couple of visits, the past
week, after an absence of sometime.
He reports Mrs. Smith has been far
from well of late.

The annual Sunday school picnic at
John C. Buckley's farm on Dominion
day was a grand success and most
enjoyable. Evidently there was as
much fun to be had of the prize
winners could be a record.

of a large church at Fort Saskatchewan.
Miller is well liked with his
new charge and the new town.

The church has purchased the Tay-
lor property as a parsonage for their
pastor.

body. Miss Hetherington their lead-
er gave a splendid address and also
received a number of prizes much ap-
preciated. The C. G. T. group are
in camp just north of Arrowood—
